PRESIDENT'S OFFICE

Announcement of Thirty-Fourth Session
1911-1912

Application made for entry as Second Class Matter under Act of July 16, 1894

CORPORATION

BOARD OF TRUSTEES

Legal Title: "Trustees of the University of Tennessee."

HIS EXCELLENCY, THE GOVERNOR OF TENNESSEE.....*Ex-Officio*
THE SUPERINTENDENT OF PUBLIC INSTRUCTION.....*Ex-Officio*
THE COMMISSIONER OF AGRICULTURE.....*Ex-Officio*
THE PRESIDENT OF THE UNIVERSITY.....*Ex-Officio*

CONGRESSIONAL DISTRICT.			TERM EXPIRES
First	HUGH G. KYLE,	Rogersville,	July 1, 1921
Second	EDWARD T. STANFORD,	Knoxville,	July 1, 1923
Third	XENOPHON WHEELER,	Chattanooga,	July 1, 1913
Fourth	HARRIS BROWN,	Gallatin,	July 1, 1915
Fifth	THOMAS R. MYERS,	Shelbyville,	July 1, 1917
Sixth	T. F. P. ALLISON,	Nashville,	July 1, 1917
Seventh	GEO. CAMPBELL BROWN,	Spring Hill,	July 1, 1915
Eighth	HU C. ANDERSON,	Jackson,	July 1, 1913
Ninth	SPENCER F. THOMAS,	Brownsville,	July 1, 1923
Tenth	ROWAN A. GREER,	Memphis,	July 1, 1921

From the City of Knoxville.

HU L. McCLUNG,	Knoxville,	July 1, 1919
JAMES MAYNARD,	Knoxville,	July 1, 1919

OFFICERS OF THE BOARD

BROWN AYLES, President

JAMES MAYNARD, Treasurer

WILLIAM RULE, Secretary

CALENDAR, 1911-1912

1911.

October 3, Tuesday, 8 P. M.

Formal Opening of Session.

November 23, Thursday.

Thanksgiving holiday.

1912

Jan. 3, Wednesday Morning.

Exercises begin.

January 24.

Mid-term examinations begin.

May 1, Wednesday.

Final examinations begin.

October 13, Friday, Midnight.

Matriculation for the session closes.

December 22, Friday Evening.

Holiday vacation begins.

February 22, Thursday.

Washington's Birthday (a holiday).

May 31.

Commencement,

OFFICERS OF THE FACULTY

BROWN AYRES, PH. D., LL. D., D. C. L.
President of the University.

JOSEPH A. GARDNER, D. D. S.
Dean of the Faculty.

DAVID M. CATTELL, D. D. S.
Registrar of the College.

FACULTY

- JOSEPH T. MEADORS, D. D. S.
Professor of the Principles of Operative Dentistry.
- STANLEY L. RICH, D. D. S.
Professor of Prosthetic Dentistry.
- HARRY A. HOLDER, D. D. S.
Professor of Dental Histology.
- JAMES W. BRYAN, D. D. S.
Professor of Clinical Dental Surgery.
- JAMES A. GARDNER, D. D. S.
Professor of Oral Surgery.
- JUSTIN D. TOWNER, D. D. S.
Professor of Oral Hygiene and Prophylaxis.
- DAVID M. CATTELL, D. D. S.
Professor of Dental Anatomy and Operative Dentistry.
- M. GOLTSMAN, C. M., M. D.
Professor of General Surgery.
- WILLIAM E. LUNDY, D. D. S.
Professor of Orthodontia.
- CLARENCE J. WASHINGTON, B.Sc., D. D. S.
Professor of Special Pathology and Therapeutics.
- C. H. TAYLOR, D. D. S.
Professor of Anesthesia.
- ELBERT W. TAYLOR, D. D. S.
Associate Professor of Prosthesis.
- EUGENE A. JOHNSON, D. D. S.
Professor of Materia Medica and Therapeutics.
- LOUIS LEROY, B.Sc., M. D.
Professor of Pathology and Bacteriology.
- EDWIN D. WATKINS, B.Sc., M. D.
Professor of Chemistry.
- EDWARD C. MITCHELL, M. D.
Professor of Histology.
- ROBERT MANN, M. D.
Professor of Anatomy.
- ROBERT FAGIN, A. B., M. D.
Professor of Physiology.
- RAYMOND MANOGUE, B. A., B. L.
Professor of Dental Jurisprudence.

LECTURERS

- J. L. MEWBORN, D. D. S.
Dental Reminiscences of War Times.
- A. J. COTTRELL, D. D. S.
Lecturer on Casting of Metals.
- L. J. McRAE, D. D. S.
Lecturer on Metallurgy.
- E. A. MAY, D. D. S.
Lecturer on Dental Ceramics.
- L. M. MATHEWS, D. D. S.
Lecturer on Celluloid.
- H. C. RUSHING, D. D. S.
Lecturer on Dental Ethics.
- R. E. BALDWIN, D. D. S.
Lecturer on Dental Economics.

LABORATORIES

ANATOMICAL

- PROF. ROBERT MANN, Chief Demonstrator.
DR. W. T. SWINK, Assistant Demonstrator.
DR. J. OWEN, Assistant Demonstrator.
MR. G. H. NEWTON, Assistant Demonstrator.
MR. H. A. MANN, Assistant Demonstrator.

CHEMICAL

- A. J. B. PACINI, B.Sc., M. D., Instructor.
_____, Demonstrator.

HISTOLOGICAL AND BACTERIOLOGICAL

- PROF. E. C. MITCHELL, Chief Demonstrator.
MR. ROBT. H. SNOWDEN, Assistant Demonstrator.

OPERATIVE, TECHNICAL

- PROF. D. M. CATTELL, Instructor.
_____, Assistant Instructor.

PROSTHETIC, TECHNICAL

- _____, Instructor.
_____, Assistant Instructor.

CLINICAL

- PROF. D. M. CATTELL, Superintendent.
_____, Operative Demonstrator.
_____, Prosthetic Demonstrator.
_____, Orthopedic Demonstrator.

ANNOUNCEMENT

HISTORY

The thirty-fourth annual session of the Dental Department commences on Tuesday, October 3, 1911, and continues until May, 1912. The University of Tennessee is the oldest institution of learning west of the Alleghany Mountains, established in 1785. Its Dental Department is the oldest Dental School in the Southwest, established in 1878. A diploma, therefore, earned from this institution is of recognized value.

The success which has attended the Dental Department of the University of Tennessee goes to prove beyond question that the dental student acquires a training based upon large clinical facilities and an abundant and accurate demonstration of all dental teaching, together with a liberal opportunity to acquire a thorough medical as well as dental education.

The wonderful progress of the art and science of dental surgery and the full recognition of it by the American Medical Association as a specialty of medicine, as well as the universal desire of every reputable dentist to have it accepted as such, render it necessary to increase the facilities by which the dental student can obtain, not only a thorough knowledge of the profession of his choice, but also information of the fundamental branches which underlie all medical science.

By formal action of the Board of Trustees of the University of Tennessee, the work of the University in Medicine, Dentistry and Pharmacy has been transferred from Nashville and Knoxville to Memphis, where it will be conducted by greatly strengthened departments. The College of Medicine is a consolidation of the Medical Department of the University of Nashville, the Medical Department of the University of Tennessee, (both heretofore conducted at Nashville), and the College of Physicians and Surgeons, of Memphis. It will combine the equipments of the three schools and will be conducted on high standards. The School of Pharmacy will be conducted in connection with the College of Medicine. The College of Dentistry is the result of the combination of the Dental Department of the University of Tennessee, (heretofore conducted at Nashville), and the College of Dental Surgery, of Memphis. The equipments of the two dental schools will be added, giving to the College an unrivaled outfit for dental teaching.

This department, as all others of the University, is co-educational.

This school proposes a graded course of instruction.

The Goodwyn Institute, a handsomely endowed institution, centrally located, two blocks distant from the College of Dental Surgery, affords rare educational opportunities and is a source of great inspiration to ambitious students. It has a magnificent library, especially equipped for scientific investigation and reference reading. In addition to its splendid library, it contains a course of lectures consisting of about two a week on popular scientific and sociologic subjects, given by the ablest men of the United States—all of which is absolutely free to the students of the University of Tennessee.

The Cossitt Library, with its circulating feature, consisting of 40,000 volumes on miscellaneous subjects, is a source of culture and delight to all students of the University.

Our magnificent system of parks (eight in number, in area 3,000 acres) and twelve miles of speedway, costing many million dollars, contribute much to the pleasure of our students for recreation.

The water of Memphis is almost absolutely pure—there being but 40 grains of foreign matter in one million gallons, as shown by analysis of Government chemists. An inexhaustible supply is furnished by artesian wells.

The Memphis sewerage system is regarded as a model for all cities in the United States. The inexhaustible supply of pure water and perfect sewerage and clean asphalt streets, make Memphis a most healthful city, the cool climate in summer and mild weather in winter an ideal climate for student life.

Our new \$300,000, six-story Y. M. C. A. building is conveniently located and for a small membership fee of \$10.00 per annum our students are extended all privileges of its baths, swimming pool, gymnasium, library, reading rooms, lectures, etc., etc.

No effort or expense has been spared either in the selection of the faculty or in the arrangement of one of the best equipped buildings for the teaching of Dental Surgery in the country. Every facility which will in any way add to the comfort and convenience of the student body has been provided.

THE less you require looking after, the more able you are to stand alone and complete your tasks, the greater your reward. Then, if you can not only do your work, but direct intelligently and effectively the efforts of others, your reward is in exact ratio, and the more people you direct, and the higher the intelligence you can rightly lend, the more valuable is your life.—*Elbert Hubbard.*

THE BUILDING

The College of Dentistry occupies the building formerly used by the Y. M. C. A. This building was remodeled and enlarged at considerable cost to have it meet the demands of the large association. A magnificent hall, with vaulted ceiling, lighted on three sides by high arched windows, was added to the rear of the already spacious building. This hall is on the ground floor and joins the building immediately in the rear of the large entrance corridor. A skylight 54 feet long by 12 wide is in the center of the high roof, which light, with the many windows, makes this one of the best operatories in the country.

The technical laboratories are well situated and lined some six feet from the floors with marble slabs. The floors are of tiling. There are two well lighted and ventilated lecture halls on the main floor.

The large double parlor at the left of the main entrance is done in marble, mirrors and raised wall decorations, making a very handsome effect. This room will be used for library and exhibit purposes.

In the basement there will be a bowling alley, shower baths and locker rooms for the use of students, especially those who avail themselves of the opportunity of dormitory privileges. The two upper floors will be used for class rooms, special laboratories and dormitory purposes, making a complete building for our use in every particular.

THE BUSY MAN'S CREED.

"I BELIEVE in the stuff I am handing out, in the firm I am working for; and in my ability to get results. I believe that honest stuff can be passed out to honest men by honest methods. I believe in working, not weeping; in boosting, not knocking; and in the pleasure of my job. I believe that a man gets what he goes after, that one deed done today is worth two deeds tomorrow, and that no man is down and out until he has lost faith in himself. I believe in today and the work I am doing, in tomorrow and the work I hope to do, and in the sure reward which the future holds. I believe in courtesy, in kindness, in generosity, in good cheer, in friendship and in honest competition. I believe there is something doing, somewhere, for every man ready to do it. I believe I'm ready—RIGHT NOW."

COURSE OF STUDY

FIRST YEAR STUDIES.—Anatomy, Physiology, Histology, Chemistry, Dental Anatomy, Operative Technique and Prosthetic Technique.

SECOND YEAR STUDIES.—The Technique of Operative Dentistry, Technique of Prosthetic Dentistry, including Crown and Bridge, Technique of Orthodontia, Pharmacology and Materia Medica, Pathology, Bacteriology, Anatomy, Chemistry, Oral Hygiene and Prophylaxis, Anesthesia, Metallurgy.

THIRD YEAR STUDIES.—Principles of Operative Dentistry, Principles of Prosthetic Dentistry, Principles of Orthodontia, Clinical Dentistry, General and Oral Surgery, Oral Hygiene and Prophylaxis, Anesthesia, Dental Ceramics, Dental Therapeutics, Ethics, Economics, Jurisprudence.

All the branches taught by the medical professors will be pursued in the College of Physicians and Surgeons, a department of the University. For further description, see their special announcement. Their \$100,000 building is beautifully situated, and one of the finest equipped medical schools in the land.

THE CURRICULUM

ORAL HYGIENE AND PROPHYLAXIS

JUSTIN D. TOWNER, D. D. S., Professor.

There is really no more important branch of dental training than that to be considered in the restoration and preservation of health, and the prevention of disease of those parts immediately connected with the oral cavity.

In certain cases the health of one organ is so dependent upon the manner in which all other organs of the body perform their functions, that a course of general hygiene with special reference to its influence upon the oral cavity will be given.

Theories of proven value will have their practical application in order that the student may have fixed in mind definite procedures best suited to the accomplishment of desired results.

The surgical technique of prophylaxis will be made of special importance.

DENTAL ANATOMY, OPERATIVE TECHNIQUE AND OPERATIVE DENTISTRY

J. T. MEADORS, D. D. S., and D. M. CATTELL, D. D. S., Professors.

It is believed that the study and practice of operative procedure should have its inception in the Freshman year, hence a course in what is termed

"Operative Technics" is entered into at the beginning of that year and carried on through the succeeding years.

This course consists of lectures, recitations, demonstrations and manual exercises, leading to "finger craft," an experience so necessary in after practice. The following syllabus will give an idea of the scope of the work:

1. *Nomenclature*—A study of the more important names and words used in dentistry.

2. *Dental Anatomy*—A study of tooth forms, with the aid of charts, models, etc., carving tooth forms in ivory from models selected; free-hand drawings of tooth surfaces; also a study of pulp chambers and canals, dissecting extracted teeth, following the canal from chamber to apex.

3. Pulp chambers and canals are cleansed and filled. Afterward the roots are dissected to ascertain the perfectness of the operation.

4. *Instrumentology*—A study of instruments, their nomenclature, classification, formulae and uses; making instruments from blank forms, tempering, sharpening; arrangement for convenience, care.

5. *Cavity Forming*—Classification, preparation of specific forms in ivory blocks. These typical cavities are made in definite sizes, according to certain measurements.

6. *Filling Materials*—Classification, preparation, manipulation.

7. *Pathology and Therapeutics*—Exposed dentine, exposed pulp, devitalizing pulp, putrescent pulp, alveolar abscess.

With the aid of "dummy patients" and extracted teeth, the actual treatments are made by students of the class.

The training received in this course familiarizes the student with teeth, their forms and peculiarities. He has had sufficient manual training, coupled with habits of order and systematic procedures, to enable him to enter the operatory the latter end of the term, and there undertake on the "live patient" the operative procedure so patiently performed in the technic laboratory.

At the beginning of the Junior course, a review is given in instrumentology, cavity classification and instrumentation, instrument grasps, rests and control of force. The "Typodont" is utilized in the preparation of ideal cavities, and these are filled with the different filling materials. Cast inlay fillings are demonstrated, and the student performs his allotted task in these as well as the welded fillings.

In the Operative Clinic all procedures taught from the chair of Operative Dentistry will be demonstrated, and the didactic instruction will be rigorously followed in the practical operations. Indeed, the formation of cavities and all operative procedures entered into in the technic course are in line with the teachings from the chair of Operative Dentistry.

Operative procedures cover all three years. Graded. First for the Freshman, then the Junior, and finally the Senior. Each succeeding year reviews the work of the previous one, and then takes a step in advance in logical sequence.

The practical or clinical course in operative procedures will be pursued in the "Operatory," a large room, well lighted with both side lights and skylight.

This room will be fitted up with all the most modern conveniences known in college equipment.

Columbia chairs, upholstered in leather, bracket and operating table attached. A Clark "reservoir" cuspidor for each chair. Also a pressed steel white enameled aseptic instrument cabinet will be a part of the equipment of each chair. The extracting chair only will have continuous running water through its cuspidor attachment.

Like the practitioner in daily life, who spends the greater time and energy with work at the chair, so in Senior student life the greater portion of time will be spent in this beautifully fitted up operatory.

First year students are expected to perform minor operations in the clinics the latter end of the term. Second year students will go to the operatory after the mid-term examinations.

Text-Books—Black's Dental Anatomy, Black's Operative Dentistry, Reference; Dental Anatomy—Bromell; Operative Dentistry—Johnson, Kirk, Marshall.

A GREAT NUMBER OF EXTRACTED TEETH ARE REQUIRED IN THIS WORK. ALL STUDENTS SHOULD BRING AS MANY OF THESE WITH THEM AS POSSIBLE.

THE CLINIC

There will be no lack of patients in this great cosmopolitan city, either for the common operations of every day practice, or for surgical operations. Many of the surgical clinics of the several hospitals are open to our students.

PROSTHESIS, INCLUDING CROWN AND BRIDGE WORK

STANLEY L. RICH, D. D. S., Professor.

E. W. TAYLOR, D. D. S., Associate Professor.

The value of thorough, practical, preliminary training is apparent to every one. Every effort will be made to make the course in prosthetic technics, which extends through the Freshman and Junior years, comprehensive and complete in every detail. The laboratories are furnished with the most modern equipment, consisting of electric lathes, gas and every convenience. The plaster bins and molding and soldering benches are made with special reference to the convenience of the students.

In the practical department, plates of all materials, gold, aluminum, vulcanite and gutta percha will be placed clinically.

A complete series of demonstrations with the projecting lantern, models and charts will be used to aid in the illustration of the lectures, in the art of preparing substitutes to replace the natural organs, and to adapt them to harmonize with the character of the face.

Students will be required to give practical demonstrations in the laboratory under the supervision of the demonstrators.

Text-Books—Turner, Warren, Inglis.

CROWN AND BRIDGE WORK

The instruction in this department is designed to impart a knowledge of all that pertains to crown and bridge work. A complete course of didactic instruction, supplemented by casts, drawings and lantern slides, is delivered to the Senior and Junior classes.

A thorough course in the technic of crown and bridge work is given the Junior class, and this includes the full technical demonstration of cast crowns and bridges, and both classes have an abundance of practical clinical experience in the operatory.

Text-Books—Goslee, Evans.

DENTAL ORTHOPEDIA

WILLIAM E. LUNDY, D. D. S., Professor.

In this department there will be shown the importance of perfectly occluded arches in producing facial symmetry and developing the bones of the face and cranium.

The importance of establishing occlusion at the time of eruption, the preservation of the contact point in order that the interproximal space be maintained—a factor in the prevention of decay of the teeth and disease of the gums.

Mal-occlusion as a diagnostic point in diseases of the eye, ear, nose and throat.

The most approved ideas will be taught in regard to the principles of Dental Orthopedia.

Also, the best technical methods of producing appliances and apparatus for all forms of irregularities of the teeth.

Text-Books—Angle, Case, Jackson, Guilford, Talbot.

THE PRINCIPLES OF SURGERY

M. GOLTMAN, C. M., M. D., Professor.

This series of lectures embraces surgical principles, including surgical bacteriology, inflammation and infection, with the general and local conditions resulting therefrom; gangrene and ulceration; the healing process, tumors and cysts, more particularly those affecting the face, mouth, jaws and tongue; repeated emphasis of the necessity of asepsis and antisepsis, and anesthesia from a purely practical standpoint.

ORAL SURGERY

J. A. GARDNER, D. D. S., Professor.

This course consists of the surgical treatment of the facial defects and blemishes, the surgical treatment of alveolar abscesses, the treatment of caries and necrosis of bone, fractures of the jaw, including the various devices and methods of fixing and retaining fractured and displaced bones in position, cleft palate and harelip. The treatment of diseases of the antrum of Highmore, the diagnosis and removal of tumors occurring about the mouth and face, the exsection of nerves in the surgical treatment of persistent neuralgia, etc.

The whole clinical course is an exemplification of aseptic and anti-septic surgery in its adaptation to and uses in the various phases of the surgical treatment of both accidental and deliberate operative cases.

Text-Books—Marshall, References, Gilmer, Brophy, Garretson, Warren, Tomes.

DENTAL HISTOLOGY

HARRY A. HOLDER, D. D. S., Professor.

Sections of the natural teeth will be ground and examined under the microscope in order that the student may become thoroughly familiar with the microscopical structure of the parts on which he operates.

Text-Books—Bromell, Leroy.

SPECIAL PATHOLOGY AND THERAPEUTICS

C. J. WASHINGTON, B.Sc., D. D. S., Professor.

The diseases of the oral cavity will be carefully taught, together with their diagnosis and treatment. These will be pointed out to the student as they are met with in the operatory, and here diagnosis and treatment will be made clear.

Text-Books—Burchard, Barrett, MaWhinney.

ANESTHESIA

C. H. TAYLOR, D. D. S., Professor.

This course will be presented in lectures—experimentally upon animals and in clinical illustrations—embracing all of the agents used for the mitigation of pain. Nitrous oxide will be exhibited daily in the extracting clinic, and ether and chloroform in the surgical clinic.

It is especially intended that this course of instruction shall embrace those conditions which the dentist is likely to meet in his practice, not omitting careful attention to the minor surgical operations which the dentist should ordinarily do for his patients, while giving an excellent basis of instruction to those who may aspire to a practice in oral surgery in the future.

Text-Books—DeFord, Turnbull, Hewett.

MATERIA MEDICA AND THERAPEUTICS

EUGENE A. JOHNSON, D. D. S., Professor.

Deals with General Materia Medica and Therapeutics, special attention being paid to those drugs that apply directly to dentistry and the different methods of application.

In this course the student will be made familiar with special drugs and formulae, indications for their use and a general survey of the dental apotheca.

Text-Books—Buckley, Potter, Gorgas, Long, Prinz.

PROFESSIONAL ETHICS AND ECONOMICS

DRS. H. C. RUSHING and R. E. BALDWIN, Lecturers.

Consists of a brief statement of the more important principles of morals, followed by an exposition of the special duties and moral obligations of professional men to their patients, toward their fellow-practitioners, and toward the public, for upholding the honor and dignity of the profession. The more important differences between the profession and business or manufacturing pursuits will be explained with reference to the ethical standards that are right and appropriate in each. The Professor and Faculty earnestly desire that the students understand and appreciate the high standard of moral quality and devotion to duty which ought to characterize all professional men.

As a greater number of students now enter dental schools without previous private preceptorship in a dental office or a knowledge of the business side of dental practice, a lecture course on dental economics seems necessary—embracing practice building, methods of obtaining and retaining patients, business relations between dentists and patients, fees for dental services, keeping books of accounts, methods of economy in the conduct of the office, and many points belonging under this head.

DENTAL JURISPRUDENCE

RAYMOND MANOGUE, B.A., B.L., Professor.

1. Regulation of the Practice of Dentistry.
 - (a) Power to regulate.
 - (b) Requirements.
2. Relation to Patrons.
 - (a) Nature of relation.
 - (b) Degree of skill required.
3. Liability for Negligence or Malpractice.
 - (a) Acts of omission constituting negligence or malpractice.
 - (b) To whom liable.
 - (c) Actions for negligence or malpractice.
4. Compensation.
5. Outline of Law of Contracts and Negotiable Paper.

Text-Book—Rhefuss.

THIS is a very good world to live in,
To lend, to spend, or to give in;
But to beg or to borrow or get your own,
It's the damdest ever known.

MAKE new friends, but keep the old,
The first are silver, the latter gold.

CONDITIONS OF ADMISSION

The candidates for matriculation must show evidence of or pass a preliminary examination as to English education, and give evidence of good moral character.

Examinations may be given and passed on by any State or county superintendent of education before applicant leaves home, and on presentation of a certificate of having thus passed a satisfactory examination, he will be admitted. A student may enter and be conditioned on two branches.

A diploma from a reputable institution, or a certificate of passage from the fourth year of a high school, or a first grade teacher's certificate, will be accepted without further examination.

CANDIDATES FOR ADVANCED STANDING

Candidates for advanced standing must present certificates from recognized schools, and are credited with work done which is satisfactory to the dean of the school and to the professor of the department concerned.

Graduates of recognized medical schools are credited with one year.

Students must register within ten days after the opening to get credit for a full year's work. In case of sickness, an additional ten days' extension is made, provided a certificate from a regular physician properly attests that illness is the cause of the delay.

The regular session will begin October 3, 1911.

The course of study covers three years of thirty-two weeks each, not counting holidays or vacations, each week including six days of teaching. A course of four years will be arranged, on request, for students who desire to spend four years in completing the curriculum, or who must spend part of their time in other employment.

The regular course is so arranged as to cover the entire work, and it is of the first importance that students should be in attendance on the opening day.

The calendar will be found on page 1.

GENERAL TUITION

The annual fees of this College are in accordance with the recommendations of the National Association of Dental Faculties.

For Freshmen Students.

Matriculation	\$ 5.00
Tuition	150.00—\$155.00

For Junior Students.

Matriculation	\$ 5.00
Tuition	150.00—\$155.00

For Senior Students.

Matriculation	\$ 5.00
Tuition	150.00
Final examination and diploma fee (non-returnable)	25.00—\$180.00

In addition to the above, there must be deposited by every student a fee of five dollars (\$5.00), called a "contingent fee," against all equally assessed, to cover unnecessary destruction of property. The unused portion of the contingent fee, if any, will be returned at the end of the session.

These fees are due and payable on entrance.

The above includes all regular fees charged by the Faculty and must be paid in advance. Should only half the fees be paid in advance, \$5.00 will be added to the balance, making \$80.00, which must be paid not later than January 24, 1912.

COST OF INSTRUMENTS AND BOOKS

The instruments and books essential in the several classes have been carefully determined to meet the students' needs without being excessive; and as long and careful observation has shown that their attainment of skill is very closely related to their instrument equipment, this school demands that each student must apply himself with the sets indicated by the proper authority. It should be remembered in this connection that the money expended for these sets brings not only the opportunities for progress, but instruments that outlast the studenthood for years, and will pay for themselves many times in actual practice.

A list of instruments necessary for the courses of instruction will be found in possession of the demonstrator. All instruments not absolutely necessary for the course will be left off this list. All possible savings in expense to the student will be zealously sought by our Faculty.

The cost of these instruments will average from \$40 to \$50 each year (the dental engine not being included).

Instruments required in this College's course will all be necessary instruments for a regular dental practitioner's use, and will, therefore, be necessary to the student in his practice after graduation.

Lockers for safe-keeping of instruments will be furnished each student. All instruments must be kept clean and sterilized before placed away in lockers.

EXAMINATIONS

All final examinations are conducted in writing.

Interim examinations may be held now and then through the session to determine the progress made.

Undergraduate students will be examined at the close of each session, and certificates showing standing in each branch will be issued. Those conditioned in this examination will be allowed a re-examination at the opening of the ensuing college term.

The examinations of Seniors for the Degree of Doctor of Dental Surgery will be upon all the branches required in their Senior year, except such students as enter from other graded schools who have passed successfully final examinations in any of those branches.

REQUIREMENTS FOR GRADUATION

The Degree of Doctor of Dental Surgery is conferred upon those candidates not less than twenty-one years of age, of good moral character, who have completed satisfactorily the required courses of study and have passed the examinations thereon, and have completed all technical and practical laboratory and clinical requirements to the entire satisfaction of the Faculty.

No student will be recommended for a degree who has not been a member of this school during the whole of the last or Senior year. The standing of students is based upon examinations, monthly reports of attendance, quizzes, clinical practice and good behavior.

No student will be recommended for a degree until all financial obligations to the College shall have been discharged.

CERTIFICATES OF HONOR

With a view to encouraging students to individual effort in acquitting themselves creditably in their studies, and that they shall have tangible official evidence that they have thus satisfactorily pursued their studies, the Faculty will present to every graduate who attains an average of 90 per cent. or over on his final examinations a certificate of honor.

NOTE.—Dentists and all students are most respectfully requested to send to the Registrar, at the expense of the College, all the extracted teeth they can command. Send by express, C. O. D. This will be a much-appreciated favor.

Entrance upon study in this school is voluntary on the part of the student, and the school being ready to acquit itself of its obligation to prepare him in Dentistry, fees will not be refunded or transferred under any circumstances, but should sickness or other good cause occasion failure of the student to complete the session for which he has paid, he will be credited, in a succeeding session, with that portion of the fee for which he has not received instruction.

HORSE SENSE.

IF YOU work for a man, in heaven's name work for him. If he pays wages that supply you your bread and butter, work for him, speak well of him, think well of him, stand by him, and stand by the institution he represents. I think if I worked for a man, I would work for him. I would not work for him a part of his time, but all of his time. I would give him an undivided service or none. If put to a pinch, an ounce of loyalty is worth a pound of cleverness. If you must villify, condemn and eternally disparage, why, resign your position, and when you are outside, damn to your heart's content. But, I pray you, so long as you are a part of an institution, do not condemn it. Not that you will injure the institution—not that—but when you disparage the concern of which you are a part, you disparage yourself. And don't forget—"I forgot" won't do in business."

GENERAL INFORMATION

Students on arriving in Memphis, should they not already have made arrangements for board, should leave their baggage at the station and go immediately to the College, where they can obtain from the Registrar information as to desirable boarding places, and will be aided in securing accommodations. Good board can be obtained in the vicinity of the college at from three and one-half (\$3.50) dollars a week up, according to the facilities offered. The College dormitory will accommodate a few students. It is run on the Y. M. C. A. plan—\$8.00 a month per bed—(from two to three single beds in a room). Students should matriculate as early as possible, and whenever practicable they should be on hand at the opening of the session, as it is a self-evident proposition that in a graded course time lost from studies will be very difficult, if not impossible, to make up.

The office of the school is in the college building, 177 Union avenue, and the Registrar will be found there practically during the entire day.

Any further information desired may be obtained by addressing

DR. D. M. CATTELL, Registrar,
College of Dentistry,
177 Union Ave., Memphis, Tenn.

"Co-operate and assist—not criticize and find fault."

ALUMNI ASSOCIATION

OFFICERS

JAS. W. BRYAN, Nashville, Tenn.,
President.

WM. E. LUNDY, Memphis, Tenn.,
Vice-President.

DELANE KINNEY, Nashville, Tenn.,
Secretary-Treasurer.

The time has not been set for the next meeting of the Alumni Association; but when the call comes every Alumnus must be true to the flag of his Alma Mater. Big things will be doing at the new building in Memphis. Come everybody and bring your dogs—unchain them in this new field.

"NO MAN ever got nervous prostration pushing his business—
You get it only when the business pushes you."
"Are we down-hearted? No-o-o!"

GRADUATES OF DENTAL DEPARTMENT OF UNIVERSITY OF TENNESSEE

The Faculty of the Dental Department, University of Tennessee, is very anxious to have a perfected mailing list of all of the graduates of the University with their date of graduation. We therefore ask that all errors in names and addresses in the following list be corrected. Please mark corrections noted on following list, *tear out page*, and *mail* to D. M. Cattell, Registrar.

CLASS 1878.

Jas. W. Williams, ———, Ga.
Jas. Y. Crawford, M.D., D.D.S.,
Nashville, Tenn. (Deceased, 1910.)
F. A. Badger, Nashville, Tenn.
(Dead.)
W. H. P. Jones, M.D., D.D.S., To-
ledo, Ohio, 2336 Fulton St.
L. C. Chisholm, Nashville, Tenn., 45
Halcyon Ave., Waverly Place.

CLASS 1879.

Jas. C. Anderson, Jr., Newman, Ga.
Corydon W. Munson, Toledo, O.
Benj. Garrett, ———, N. C.
(Deceased.)
Geo. A. McPeters, Pulaski, Tenn.
Byron B. Berts, ———, Tenn.
W. L. Smith, Nixburg, Ala.
Geo. T. Parker, Smithgrove, Ky.
A. F. Mallet, ———, N. C.
J. J. Moore, Coxburg, Tenn.
Jas. L. McGee, ———, Tenn.

CLASS 1881.

J. W. Marmon, Lemonville, Tex.
H. M. Clark, ———, S. C.
S. Lanier, ———, Tenn.
R. E. Burns, Nashville, Tenn.,
Union St.
G. B. Clement, Macon, Miss.
C. D. Smith, Hartsell, Ala.
B. B. Davis, ———, Ala.
H. D. Harper, Kingston, N. C.
(Deceased.)
T. J. Key, ———, Ala.
S. S. Chisholm, ———, Ga.
R. N. Kesterson, Knoxville, Tenn.
J. C. Wiggins, Knoxville, Tenn.
E. F. McKissack, ———, Miss.
W. C. Crow, Pulaski, Tenn.
J. A. Harman, ———, Miss.
R. T. Dinwiddie, ———, S. C.
C. J. Tool, ———, Tenn.
M. A. Bland, Charlotte, N. C.
A. Hartman, ———, N. C.
J. W. McElhaney, ———, Tenn.
W. F. Fowler, Greenville, Tenn.
J. C. Belote, ———, Tenn.

CLASS 1882.

N. M. Culbreth, Raleigh, N. C.
J. R. George, ———, Tex.
J. C. Grant, Rogersville, Tenn.
W. W. Grant, ———, Tenn.
J. R. Greer, Marietta, Ga.
M. W. Greenor, ———, Tenn.
Chas. S. Hawley, ———, La.
C. B. Johnston, Monroe, La.
W. B. Lesuer, ———, Tenn.
A. E. McGlothlin, ———, Tenn.
John T. Ryan, ———, Tenn.
S. S. Shackelford, Austin, Tex.

CLASS 1883.

H. D. Boyd, Troy, Ala.
E. G. Grant, Columbia, Tenn.
W. W. Harmon, Greenville, Tenn.
J. W. Lee, ———, Tenn.
Elias Locke, Troy, Ala.
R. A. B. Moyer, ———, Tenn.
C. A. Ryder, Athens, Ga.
W. E. Scott, ———, Tenn.
G. B. Stewart, Greenwood, Miss.
W. B. Stewart, ———, Ala.
J. R. Walton, Ashland City, Tenn.

CLASS 1884.

Isaac A. Wilson, Morrilton, Ark.
C. E. McConnell, ———, Ala.
R. S. Jameson, ———, Miss.
E. O. Dickerson, ———, Tenn.
S. A. Hays, Columbia, Tenn.
H. B. Kline, Hudson, S. D.
M. D. Lanier, Dublin, Ga.
T. W. Hogan, Canton, Ga.
S. H. Baird, ———, Ala.
S. G. Robinson, Eufaula, Ala.

CLASS 1885.

S. B. Anderson, Martin, Tenn.
E. Y. Cartwright, Yorkville, S. D.
T. S. Cartwright, ———, Ky.
Southall Dickson, Bolivar, Tenn.
G. W. Dodson, ———, Tenn.
Jas. M. Glenn, Jackson, Tenn.
R. S. Griggs, West Point, Ga.
Hardy B. Harrell, Gainesville, Tex.
— A. Lee, Nashville, Tenn.
Miles M. Puckett, Dalton, Ga.
M. E. Shelton, Cape Girardeau, Mo.

Graduates of Dental Department of University of Tennessee

CLASS 1886.

J. S. Cottrell, Crossville, Tenn.
(Deceased.)
E. T. Cunningham, ———, Tenn.
C. L. Deshields, Spartanburg, S. C.
C. N. Harrell, ———, Ga.
William S. Jordan, Tunnel Hill, Ga.
Wm. D. King, ———, Ala.
G. W. Myers, ———, Ky.
Lora G. Nisbet, Aberdeen, Miss.
A. W. Palmer, Nashville, Tenn.
M. L. Rudolph, Clarksville, Tenn.
C. J. Spivy, Vicksburg, Miss.
E. G. Stuart, Lancaster, Tex.
Duff Post, Tampa, Fla.

CLASS 1887.

Benj. F. Atwood, ———, Ky.
Chas. L. Everett, ———, Ga.
Jas. W. Barlow, Greenville, Ky.
W. F. Brotherton, ———, Wis.
Frank E. Brown, ———, Ky.
A. A. Francis, ———, Tenn.
Marshall Grigg, Knoxville, Tenn.
Francis M. Fewell, N. Vernon, Ind.
E. J. Harris, Petersburg, Ind.
W. W. Krape, ———, Ill.
M. J. Massengill, Monroe, La.
Logan J. McLean, ———, Ga.
A. M. Platt, ———, Mich.
J. G. Ramsey, Eldorado, Ill.
E. E. Rust, Monroe, Wis.
H. P. Smith, Lyons, Kan.
John S. Suber, Crystal Springs, Miss.
John E. Thomas, ———, Ind.
W. B. White, Jr., ———, Ky.
M. H. Wilcox, ———, Mo.
N. H. Wilson, ———, Ind.

CLASS 1888.

David H. Bell, Bastrop, La.
Freddie L. Davidson, Nashville, Tenn.
Robt. C. Gordon, Mobile, Ala.
Orton P. Hart, Needles, Cal.
Benj. E. Holcomb, ———, S. C.
Wm. W. Hunt, Thomasville, Ala.
Wm. T. Mowdy, Cameron, Tex.
Jas. R. Pinnington, Nicholasville, Ky.
W. B. Everett, ———, Tenn.

CLASS 1889.

C. H. Alexander, Mineral Wells, Tex.
Twigg R. Roger, ———, Ga.
Arthur J. Cottrell, Knoxville.
Robt. D. Crutcher, Lewisburg, Tenn.
Jos. B. Harris, Meridian, Miss.
Eugene L. Holmes, Sandersville, Ga.
Jas. H. Moore, Clarence, Ala.
Ed F. Slayton, ———, Ala.
Sam J. Spargo, Ducktown, Tenn.
J. C. Spivy, Vicksburg, Miss.
W. Andrew Towns, Memphis, Tenn.
Alvin S. Willis, Knoxville, Tenn.
M. M. Harris, Knoxville, Tenn.

CLASS 1890.

G. Fletcher Brown, ———, Ky.
Benj. F. Burk, Hobart, Okla.
Andrew Caldwell, ———, Md.
Flora Dillon, Bloomington, Ind.
J. P. Gray, Nashville, Tenn.
E. P. Hickman, Lawrenceburg, Tenn.
W. D. Kallock, ———, Tenn.
W. J. Morrison, Nashville, Tenn.
A. W. Myers, Scottsville, Ky.
Jas. W. Ratliffe, Fort Worth, Tex.

CLASS 1891.

Frank S. Edgar, ———, Ky.
S. Harris Edmons, ———, Tenn.
Alonzo P. Griffin, ———, Tex.
Henry S. Jones, ———, Ky.
J. H. Mason, Lavergne, Tenn.
E. F. Pennington, Carmichels, Pa.
Chas. F. Smith, Canton, Miss.

CLASS 1892.

H. D. Broadbudd, Ponca City, Okla.
E. A. Cowles, St. Mary's, O.
M. A. Coykendall, Grand Rapids, Mich.
G. W. Crow, Trinidad, Colo.
M. A. Galbreath, ———, Cal.

“**H**E who seeks one thing in life, and but one,
May hope to achieve it e'er life is done;
But he who seeks all things where e'er he goes,
Reaps only of the hopes which around him he sows—
A harvest of barren regrets.”

UNIVERSITY OF MEMPHIS

COLLEGE OF LAW

Session Opens September 14th, 1911

For the benefit of young men who are engaged during the day, the faculty has arranged the course of lectures from 5 p. m. to 7 p. m. Young men are not advised to come to the University without money, but with capital enough to pay expenses during the time which must necessarily be spent in seeking employment. The opportunities for one to take the course and at the same time pay his way can not be surpassed anywhere. The faculty is one of the strongest in the country. They are: S. Walter Jones, Dean; John E. McCall, Judge of the Federal Court; R. E. Maiden, Ex-Judge of the Circuit Court of Tennessee; John L. Stout; David A. Frayser; and J. Elmore Holmes.

MEMPHIS, TENN.

College of Extension

AND CORRESPONDENCE

University of Memphis

In order to prepare those who desire to later enter College or a University, the College of Extension has been established

Students will be furnished for nominal fees Home Study courses on all subjects necessary to entrance, such as Latin, English, Mathematics, Elementary Sciences and Commercial.

Other correspondence courses that have received the stamp of approval of the older universities are given.

Write for detailed information on any subjects you contemplate studying.

University of Tennessee

COLLEGE OF MEDICINE

MEMPHIS, TENN.

Consolidation of

MEDICAL DEPARTMENT, UNIVERSITY OF NASHVILLE,
MEDICAL DEPARTMENT, UNIVERSITY OF TENNESSEE, NASHVILLE, AND
COLLEGE OF PHYSICIANS AND SURGEONS, MEMPHIS.

With combined equipment of all.

Sixty-first session in new college building, September 13, 1911.

More than sixty thousand dollars' worth laboratory, museum and dispensary equipment alone, providing for absolutely thorough instruction in fundamental subjects by the laboratory method, twelve courses, as follows: Anatomy, Bacteriology, Chemistry (Inorganic and Organic), Clinical Microscopy, Embryology, Histology, Operative Surgery, Pathology, Pharmacy, Pharmacology, Physiology, Physics.

Clinical instruction provided in College Dispensary; City Hospital opposite main entrance of college; exclusive clinical privilege in the eight-story Baptist Memorial Hospital connected with college by covered passageway, and by other hospitals, including Memphis Foundling Home.

Application for admission must be accompanied by official entrance form, showing synopsis of literary curriculum, certified to by principal of the school. This form supplied upon request.

COLLEGE OF PHARMACY

The students of the University of Tennessee College of Pharmacy will have many special advantages arising from the fact that several of the courses in pharmacy are identical with courses in the medical curriculum. The observation of medical clinics in the dispensary and the writing and compounding of prescriptions for these patients will be of immense practical value to pharmacy students.

For any edition of the University of Tennessee Bulletin, or other information, address.

E. F. TURNER, REGISTRAR,
879 Madison Avenue,
MEMPHIS, TENNESSEE.

Until Sept. 9th,
NASHVILLE, TENN.
